of Chemistry competition

Chemistry – our life our future: what will life look like in 2050?

If you think you can guess the future, enter the
**INEOS/Chemical Industries Association
International Year of Chemistry competition**

To celebrate the International Year of Chemistry, INEOS is delighted to sponsor the Chemical Industries Association International Year of Chemistry competition. The competition, launched by Esther McVey MP at the House of Commons, is for school pupils of all ages to think about how science impacts their everyday lives and how science might transform life as we know it by 2050.

Everywhere around you the chemical industry has changed your life. Without the plastics of the chemical industry you would not have games consoles, computers, modern footballs that don't soak up the water, most of your clothes, cars, paper, pens, even the clean water you drink from a tap and the medicines that make you better. So if we can do all of this in 2011 what could we do by 2050?

Will we still have schools, homework and chores?

Will elderly people look old?

Will we have cars?

Will people in 2050 laugh about how we live now?

Will our clothes look the same?

Will we look the same?

How will the environment around us look?

Will we still have the same hobbies and play the same sport?

Will we still work in the same offices, shops and factories?

What will we eat, how will it taste?

By giving us your view on these types of questions you stand a chance of winning a prize for your school.

Primary/Middle schools picture competition

**£1000 first prize
£500 second prize
£250 third prize**

Student prizes

**£300 first prize
£150 second prize
£75 third prize**

Secondary schools writing competition

**£1000 first prize
£500 second prize
£250 third prize**

Student prizes

**£300 first prize
£150 second prize
£75 third prize**

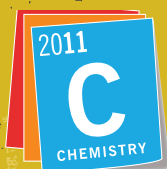

Primary/Middle schools picture competition

Draw a picture of your idea. The picture can be done with any materials you choose, such as collage, paint or pencil (all of course possible thanks to chemicals!) and should be on A4 or A3 paper.

Secondary schools writing competition

Please tell us in 750 words what you think the future will be like.

The judges will be interested in all the ideas you have so why not have a go!

How to enter

Closing date: 30 May 2011

Please include your name, age, school and the address, telephone number and email of your school and send entry to:

Science Competition
Chemical Industries Association
Kings Buildings
Smith Square
London
SW1P 3JJ

We will be unable to return entries. Some entries will be chosen for display at the presentation

Winners will be notified by 10 June and prizes presented before 22 July.
